

Docket No. 506.35379CC2
Serial No. 09/544,632
June 22, 2005

AMENDMENTS TO THE CLAIMS:

The following listing of claims replaces all prior listings, and all prior versions, of claims in the application.

LISTING OF CLAIMS:

1 - 16. (Canceled).

17. (Withdrawn) A method for treating or preventing a disease selected from the group consisting of fatty liver, hypertension, hyperlipidemia, arteriosclerosis, obesity, diabetes and myocardial infarction of an animal which comprises administering to the animal a protein/phospholipid complex or protein hydrolyzate/phospholipid complex containing 20 - 50 wt% of bound phospholipid, wherein said protein is derived from a plant.

18. (Currently amended) A method for improving the cholesterol metabolism of an animal, which comprises administering to the animal a ~~protein/phospholipid complex or protein hydrolyzate/phospholipid complex, each of said protein/phospholipid complex and said protein hydrolyzate/phospholipid~~ said complex containing ~~20—50~~ at least 10 wt% of bound phospholipid, said bound phospholipid in ~~each the~~ the complex being a phospholipid which remains bound to the ~~protein or protein hydrolyzate~~ after being treated with a nonpolar organic solvent, wherein said protein is soybean protein and said phospholipid is enzyme-modified phospholipid.

19 – 27. (Canceled).

Docket No. 506.35379CC2
Serial No. 09/544,632
June 22, 2005

28. (Withdrawn) The method according to claim 17, wherein the phospholipid is lecithin.
29. (Withdrawn) The method according to claim 17, wherein the phospholipid is enzyme-modified lecithin obtainable by treating lecithin with phospholipase.
30. (Withdrawn) The method according to claim 28, wherein the phospholipid is enzyme-modified lecithin obtainable by treating lecithin with phospholipase.
31. (Withdrawn) The method according to claim 17, wherein the animal is human.
32. (Withdrawn) The method according to claim 28, wherein the animal is human.
33. (Withdrawn) The method according to claim 29, wherein the animal is human.
34. (Withdrawn) The method according to claim 30, wherein the animal is human.
35. (Canceled).

Docket No. 506.35379CC2
Serial No. 09/544,632
June 22, 2005

36. (Currently amended) The method according to claim 18, wherein the enzyme-modified phospholipid is enzyme-modified lecithin obtainable by treating lecithin with phospholipase.

37. (Canceled).

38. (Previously presented) The method according to claim 18, wherein the animal is human.

39 – 41. (Canceled).

42. (Currently amended) A method for lowering cholesterol or lipid level of an animal, which comprises administering to the animal a ~~protein/phospholipid complex or~~ protein hydrolyzate/phospholipid complex, ~~each of said protein/phospholipid complex and said protein hydrolyzate/phospholipid~~ said complex containing 20–50 at least 10 wt% of bound phospholipid, said bound phospholipid in ~~each~~ the complex being a phospholipid which remains bound to the ~~protein or~~ protein hydrolyzate after being treated with a nonpolar organic solvent, wherein said protein is soybean protein and said phospholipid is enzyme-modified phospholipid.

43. (Currently amended) A method for producing food or feed, which comprises adding, to a food or feed material, a ~~protein/phospholipid complex or~~ protein hydrolyzate/phospholipid complex, ~~each of said protein/phospholipid complex and~~ said protein hydrolyzate/phospholipid complex containing 20–50 at least

Docket No. 506.35379CC2
Serial No. 09/544,632
June 22, 2005

10 wt% of bound phospholipid, said bound phospholipid in ~~each~~ the complex being a phospholipid which remains bound to the ~~protein~~ or protein hydrolyzate after being treated with a nonpolar organic solvent, wherein said protein is soybean protein and said phospholipid is enzyme-modified phospholipid.

44. (Canceled).

45. (Currently amended) The method according to claim 42, wherein the enzyme-modified phospholipid is enzyme-modified lecithin obtainable by treating lecithin with phospholipase.

46. (Previously presented) The method according to claim 42, wherein the animal is human.

47. (Canceled).

48. (Currently amended) The method according to claim 43, wherein the enzyme-modified phospholipid is enzyme-modified lecithin obtainable by treating lecithin with phospholipase.

49. (New) The method according to claim 18, wherein said complex contains 10-50 wt% of the bound phospholipid.

50. (New) The method according to claim 49, wherein said complex contains 20-50 wt% of the bound phospholipid.

Docket No. 506.35379CC2
Serial No. 09/544,632
June 22, 2005

51. (New) The method according to claim 42, wherein said complex contains 10-50 wt% of the bound phospholipid.

52. (New) The method according to claim 51, wherein said complex contains 20-50 wt% of the bound phospholipid.

53. (New) The method according to claim 43, wherein said complex contains 10-50 wt% of the bound phospholipid.

54. (New) The method according to claim 53, wherein said complex contains 20-50 wt% of the bound phospholipid.
